“ Thank you Mr Raker for sharing those memories of your and my father together. I’ve never had the chance to meet you. However my father would always talk about the times he shared with you. He thought the world of you. Thank you for planting those trees in my fathers Honor. I’m sure they will grow to be big and beautiful. My father loved trees and apple was among his favorite. I would love to come by your farm sometime and visit the same places my father spent his youth. My father would talk about making maple syrup with you and I’m without a doubt he’s in Heaven doing just that. Thanks again for sharing your memories. He will be missed by so many.

“ Roy and I met on the first day of school of our 8th grade in 1967 when he started school at Liberty Jr.-Sr. High School after he and his family moved to the Liberty, PA area from Loyalsock Township. He quickly became one of my closest and dearest friends, which I considered him to be for the rest of his life and will for the rest of mine. Roy was always very athletic, both strong and fast. There were several fast runners in our high school class, including myself, and I was always neck and neck with one other classmate. But Roy could outrun us all. While at Liberty Roy was a very talented wrestler. He was a faithful helper on our family farm where we spent many happy hours working together. I have so many good memories of being with him: his eighteenth birthday party, which was a nice family event at his house where his mother fixed dinner and we had cake and ice cream; the time he ran over a nest of bumble bees while baling hay and he really speeded up the tractor to get away from them while I bounced along on the wagon, hanging on; him getting so annoyed at a bale of hay which wouldn't stay on the elevator that he rode up the elevator with it to keep it on, of making syrup and hunting and hiking and so many other things. He gave me a picture of the three astronauts who first went to the moon after we had a discussion, shall we say, about whether men should have gone to the moon or whether it even happened. It still hangs in my bedroom at the farm where I first hung it over 50 years ago. I ordered some apple and pear trees which coincidentally were delivered just before he died. My sons and I planted them at the farm that weekend, May 16 and 17, now in his memory. May 16, the day he passed, also would have been my paternal grandmother's 136th birthday. I looked forward to him coming to the farm again and to me visiting him in Tennessee and am sorry I did not to get to spend more time with him in our later years. I will greatly miss him.

“ Roy was a great man. I learned a few things from him in my younger days that has stuck with me all these years. He was one of the kindest, gentlest, and funniest guys I ever had the privilege of meeting. You'll live on in our hearts and in paradise Mr. Hubble.

“ Roy was a bigger than life character in every sense of the word. He would befriend you with no hesitations. Oh how he loved kids ,in fact he was quite the kid himself , loved to joke and cut up. What I will miss most of all is how he loved God and would tell you all the things He has done for him. As much as it may hurt the ones who loved him most, I am sure he would tell us that there is no other place that he rather be than with his Lord and Savior. You will be sorely missed and never forgotten.

“ I got to meet Roy when I visited Audrey with one of her brothers in 2018. Very much enjoyed the trip. They were both a pleasure to be around. Love to bug him about being a bears fan as he of course everyone knows is a big time Steelers fan. He didn't want to have not of that. God Bless him. I will never forget him.Tim.
